

What is the project?

Welcome to our online exhibition for the redevelopment of the Baltic Wharf site currently occupied by Travis Perkins. The plans we're sharing with you propose a new building with a reprovided Travis Perkins branch on the ground floor and between 830-900 student bedrooms and associated amenity space on the floors above.

Unite Students will be Travis Perkins' development partner on this scheme, and, like Travis Perkins, Unite Students will have a long-term presence on the site as the operator of the student accommodation.
